

Ultra Premium Penofin®

- Ultra Premium Formula for Extra Performance
- Increased transoxide pigments for 99% ultraviolet protection against fading
- Extra protection against mildew
- Ten transparent tones
- Brazilian Rosewood Oil that deeply penetrates to protect against moisture
- Pigments won't fade, turn chalky or wash off

This Ultra Premium Red Label Penofin was created to meet the demand for an exterior wood finish that outperforms all other transparent stains. The highly-penetrating Brazilian Rosewood Oil base, from sustainably harvested seeds, protects and nourishes wood fibers far deeper than any other stain. With the added mildew protection the “dark menace” will not attack wood so easily, and helps preserve that freshly-milled look. Penofin Ultra Premium Red Label is perfect where rain, wind, snow, or high elevations are encountered. The formula in Ultra Premium Red Label is the result of extensive testing, and the use of the highest quality ingredients. Penofin wins the “Battle Of The Stains” penetration tests over all competitors, and gives longer life to wood of any species. Easy to apply and simple to maintain.
